## Letter of recommendation

We hand-picked Maria to help us finalize one of our game productions in 2013. During that time, me and my colleagues were impressed by her efficiency and artistic focus. Most of all I appreciated Marias ability to understand us and our process. It was easy for her to adapt to our workflow and equally easy for us as a company to use her. Last but not least Maria Norkvist was a true pleasure to work with. I warmly recommend her to any future employer.

A handwritten signature in black ink that reads 'Jakob Tuchten'.
